

# NORTH MELBOURNE TOWN HALL FACADE RESTORATION

## Project update

### December 2022

Located on the corner of Queensberry and Errol streets, North Melbourne Town Hall is one of Melbourne's iconic buildings featuring a 26 m clock tower.

In January 2023, City of Melbourne will commence works to restore the facade of the building, which was built in 1876. The works will be carried out in sections, starting on Queensberry Street before moving onto Errol Street and the clock tower.

Scaffolding will be in place for the duration of the works. This will impact the surrounding footpaths and entrances to the building.

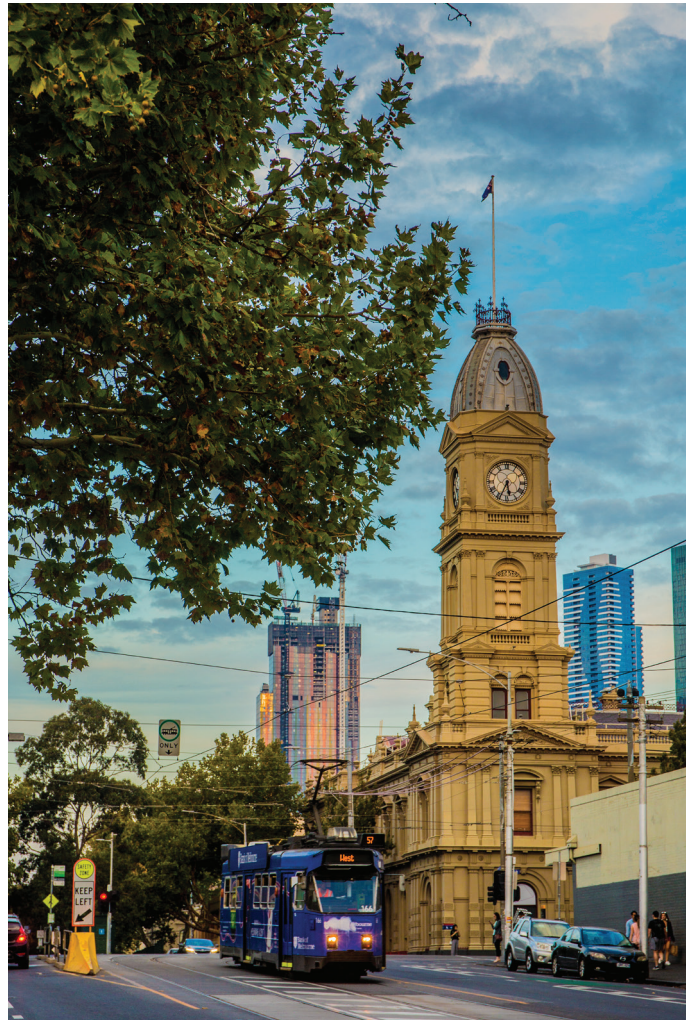

Works are scheduled to be complete in May 2023.

### Gas-free operations

In line with our Emissions Reduction Plan for Council Operations 2021-26, we're transitioning all gas services in the building to electrical to help reduce emissions. These works include the installation of new heating and cooling pumps.
