About This Project

The Picture Book Program 2016 is a partnership between two branches of the City Communities Group within the City of Melbourne – Community Services (Family Services) and Arts Melbourne (ArtPlay). The program is designed to engage families from within the municipality. It aims to encourage an awareness and enjoyment of literacy and the creative process, in a fun and supportive environment. The illustrations, text, and music in this book were created by the attending families, using everyday materials, curiosity, and experimentation. The result is a book and a song to be enjoyed again and again.

A young girl with her hair in a ponytail, wearing a blue sleeveless shirt and dark jeans, stands on the left side of the page. She is holding a white marker and drawing on a large wall. The wall is covered in a dense, colorful pattern of scribbles in shades of blue, red, purple, and black. The overall scene is vibrant and artistic.

Activities

GALAXY PLAYDOUGH

You will need:

- 1/2 cup salt
- 1 cup plain flour
- 2 tablespoons cream of tartar
- 1 cup water
- 1 tablespoon oil
- Red, blue and yellow food colouring
- Silver glitter

Instructions:

Mix all ingredients in a saucepan over medium heat until doughy. To get a dark midnight colour: use a lot of blue, some red, and a small amount of yellow food colouring (add more as you go if you need). Next, tip it out and knead until you're happy with the texture. Lastly, add the glitter!

SALAD SPINNER PAINTING

You will need:

- Salad spinner
- Washable paint in "squeeze" bottles
- Small paper plates

Instructions:

Place a paper plate inside the salad spinner and have your child drop a few globs of paint anywhere on the plate. Place the lid on and give it a fast spin, your child will love this bit! Open the lid and take a look inside at your spin art! Carefully pull out the plate and let it dry.

These creative activities help children develop fine motor skills, working the muscles in their fingers and hands. They also promote concentration and focus, developing the child's attention span.
