

## New bike separation lanes

New bicycle lanes are being installed in Albert Street, East Melbourne between Gisborne and Hoddle Streets.

The new lanes are designed to improve safety for all road users by separating motorists, pedestrians and cyclists.

The lanes are arranged a little differently to a standard bike lane, so it may take a while for everyone to get used to them.

Cyclists, motorists and pedestrians need to be aware of the changes.

## Parking in Albert Street

The new bicycle lanes mean that when visiting Albert Street, motorists will have to park differently to what they are currently used to:

1. **Park in the allocated parking lane, never in the bike lane.**
2. **When leaving your car, be careful to watch and listen for bikes as you cross the bike lane to the footpath.**
3. **Always obey the parking signs in Albert Street, especially the clearway restrictions.**
