

# BRENS PAVILION REDEVELOPMENT

## PROJECT COMPLETION - SEPTEMBER 2023

Works to upgrade Brens Pavilion located in Royal Park between Melbourne Zoo and Royal Parade are now complete. The new pavilion provides accessible change facilities and more room for the growing demand in community sport, particularly the growth in female participation.

The new pavilion features eight gender neutral and accessible change rooms, two umpire change rooms, a first aid room and improvements to the existing kitchen and social spaces.

The Brens Pavilion redevelopment is supported by the Victorian Government.

New accessible change rooms

### Did you know?

The sugar gum and red gum trees located at the back of Brens Pavilion were planted by the Acclimatisation Society of Victoria between 1860-90 as part of a pathway from The Avenue to the entrance of Melbourne Zoo.
