

The 'Park light' is used within parks and gardens throughout the municipality.

Lights are to be set out evenly along paths at approximately 22 metre centres. The placement of lights should be carried out in consultation with a specialist lighting engineer to ensure the relevant lighting standards are met.

The lights use a metal halide luminaire. Wattage to be determined by a specialist lighting engineer. Park light poles are fabricated from spun aluminium and then powder coated, Dulux 'Deep Brunswick Green' 6134G. Park light poles at Birrarung Marr are to be powder coated Dulux 'Charcoal' 88351.

For fabrication & installation drawings, refer to City of Melbourne, City Design drawings; Project No: 95164 - Park Light
