

# EMISSIONS REDUCTION TO DATE

Over the life of the previous Emissions Reduction Plan (2016-21) the City of Melbourne reduced our operational emissions by 76%

## our emissions reduction achievements

Total Solar installation capacity across 26 sites  
**1,044 kW**

Melbourne Fashion Week, Melbourne Music Week and Melbourne Knowledge Week are Australia's first large events certified carbon Neutral

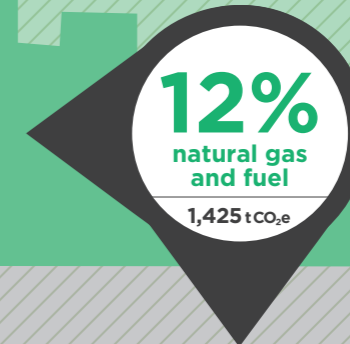

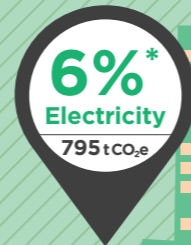

Melbourne Renewable Energy Project (MREP) delivering renewable electricity and reducing yearly carbon emissions by

**9,256 t CO<sub>2</sub>e**

The percentage of City of Melbourne's corporate fleet vehicles which are electric or hybrid

**53%**

## Major sources of greenhouse gas emissions from our organisation

\*99% of our electricity comes from renewable sources and the remainder is attached to non-contestable meters, meaning we unable switch these to our renewable energy provider

#Event carbon emissions sit outside the City of Melbourne corporate reporting boundary. We measure, reduce and report these emissions for full transparency
