

TRANSFORMING SOUTHBANK BOULEVARD

Construction update

February 2022

Following the completion of the second neighbourhood park along Southbank Boulevard in late 2021, works are commencing on the final component of the Transforming Southbank Boulevard project – a \$2.4 million play space located between Kavanagh and Fawkner streets.

Works are starting in early February and are expected to be completed by September 2022.

Play space

The existing infrastructure in the area will be demolished in early February before construction begins. The play space will be a natural environment, accessible for children of all ages and include boulders for climbing, swings, slides and ladders.

Other improvements to the area will include:

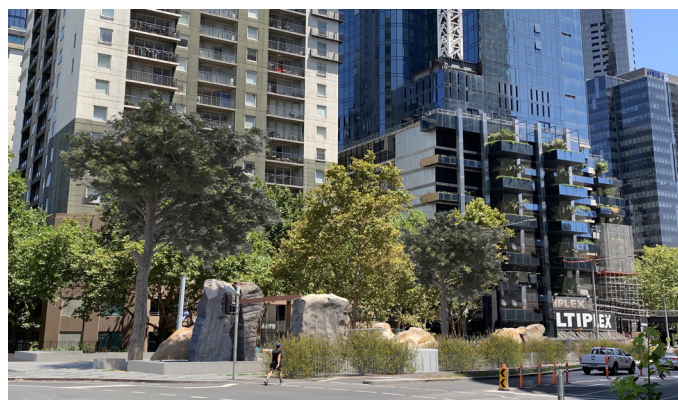

- upgrades to landscaping around the play space
- additional street furniture.

Staying COVIDSafe

COVID-19 has impacted several of the City of Melbourne's key projects in various ways. The safety of our community, people and contractors is always our highest priority, and we will keep you informed if things change and works schedules need to be adjusted.

Hours of operation

Works will take place between 7am and 4pm weekdays. There will be occasional work on Saturdays between 8am and 4pm.
