1. Future Melbourne Committee, Agenda item 6.3, 1 December 2015

Report to the Future Melbourne (Planning) Committee

Amendment C257 Melbourne University Southbank Campus Advertising Sign Controls

1 December 2015

Presenter: Leanne Hodyl, Acting Manager Urban Strategy

Purpose and background

1. The purpose of this report is to seek the Future Melbourne Committee's support for the adoption of Melbourne Planning Scheme Amendment C257 Melbourne University Southbank Campus Advertising Sign Controls (the Amendment). Refer to attachment 2.
2. On 1 September 2015 the Future Melbourne Committee resolved to seek authorisation from the Minister for Planning for the Council to prepare and give notice of the Amendment and to limit notification to the land owner, Heritage Victoria and the prescribed ministers.
3. The Amendment seeks to revise the Schedule to the Public Use Zone so that Category 2 signage controls apply to the Victoria College of the Arts and the Victoria Police Mounted Branch, Southbank, rather than the current Category 4 controls. Category 2 controls are designed for office and industrial areas and have less restrictive requirements on the size and type of signage that is allowed.
4. The Amendment will not apply to the Grant Street frontage where Category 4 controls will continue to apply within 20 metres of the street frontage (refer Attachment 2) in order to minimise any visual impact for residential neighbours on the south side of Grant Street.

Key issues

5. Authorisation was granted by the Minister for Planning on 14 September 2015 and the City of Melbourne notified the land owner, Heritage Victoria and the prescribed ministers.
6. All parties were given 2 weeks to make a submission. No submissions were received.
7. The Amendment is appropriate as it maintains strong amenity controls along Grant Street which has a residential interface, while allowing signage consistent with that of the surrounding area for the remainder of the campus, which is directly adjacent to the Capital City Zone.

Recommendation from management

8. That the Future Melbourne Committee recommends Council:
 - 8.1. Adopts Melbourne Planning Scheme Amendment C257 Melbourne University Southbank Campus Advertising Sign Controls as shown in Attachment 2, pursuant to Section 29 of the *Planning and Environment Act 1987*.
 - 8.2. Submits the Amendment to the Minister for Planning for approval.

*Planning and Environment Act 1987***MELBOURNE PLANNING SCHEME****AMENDMENT C257****EXPLANATORY REPORT****Who is the planning authority?**

This amendment has been prepared by the City of Melbourne, which is the planning authority for this amendment.

The Amendment has been made at the request of the University of Melbourne.

Land affected by the Amendment

The Amendment applies to:

- The University of Melbourne, Victorian College of the Arts (VCA) Campus:
 - 204-234 St Kilda Road, Southbank;
 - 13-39 Dodds Street, Southbank; and
 - 45-99 Sturt Street, Southbank.

**What the amendment does**

The Amendment amends the Schedule to the Public Use Zone so that Category 2 signage controls apply to that part of the above listed land that is greater than 20 metres from Grant Street, rather than the current Category 4 signage controls. Along Grant Street only Category 4 signs may be erected within 20 metres of the street frontage.

Strategic assessment of the Amendment

Why is the Amendment required?

The University of Melbourne provides an educational facility, research and development roles, art and culture and other activities of benefit to the community. The current sign controls limit the ability to identify the campuses and the component parts to both the institution users and the broader community.

The University has advised that to properly identify their individual buildings and secure philanthropic funding for a new art gallery, it is important that the signage controls on the campus allow for appropriate identification. Category 4 controls do not provide a suitable signage regime for an internationally renowned University. They are more restrictive than those that apply in the residential zones.

How does the Amendment implement the objectives of planning in Victoria?

The amendment implements the objectives of planning in Victoria by providing an opportunity for the consideration of advertising signs associated with an education centre in accordance with Section 4(1) of the *Planning and Environment Act 1987*.

How does the Amendment address any environmental, social and economic effects?

There are no environmental, social or economic impacts likely to arise from the amendment.

The amendment does not impact on the *Transport Integration Act 2010*.
