	Description: Victorian Public	c Libraries

*Note: The search profile defaults to "All Victorian Public Libraries [shared]", which searches live data, so is most accurate.

If you don't get results with the Victorian Public Libraries search profile, you can change the search profile to "All Victorian Public Libraries and LA [shared]" in order to include item holdings at interstate libraries and academic libraries. Please note that this data is less accurate, and academic and some interstate libraries charge for interlibrary loans.
