

Motion

That the Future Melbourne Committee requests the completion of a report assessing the planning scheme amendment for 1 Queens Bridge Street against the provisions of the Melbourne Planning Scheme, and that this report be published on the corporate website within one week of the gazettal of the amendment.

Background

The Minister for Planning has made a decision to amend the Melbourne Planning Scheme to allow for development at 1 Queens Bridge Street, which is shortly to be gazetted. The views of the City of Melbourne were not made public prior to a decision being made. This motion will put the position of the City's planners on the public record, so that the City is not silent on the planning merits of the largest building ever to be approved within its boundaries.
