Helping Out Guide

A guide to finding support services and agencies in Melbourne

2022-2023
The Helping Out Guide provides you with a comprehensive list of free and low cost services from more than 90 organisations in the central city and surrounding suburbs. The agencies listed offer many types of support and services. These include:

1. Homelessness accommodation (including rental assistance)
2. Services for women
3. Essential items and services (including food, clothes, showers, laundry, travel)
4. Support for addictions (including drugs, alcohol, gambling, needle exchange)
5. Health and wellbeing services (including hospitals, counselling, medical)
6. Legal and financial services
7. Assistance with employment services
8. Services for Aboriginal and Torres Strait Islander peoples

The City of Melbourne updates this information each year to make sure the service details are as accurate as possible. Information included in this guide was correct at time of publication (August 2022).

How to use the Helping Out Guide

This guide is arranged into eight sections so that you can find an agency based on the support or service that you need. For example, if you need a hospital, you can find all hospitals listed under ‘Health and wellbeing services’.

Agencies are listed from A-Z in each section, including details such as address and operating hours. For comprehensive details about each agency, please make contact via the phone number provided or visit its website.

Where only the phone number is listed, ring the agency to find out which of their centres you may need to visit. We have provided public transport routes to most places, except those located in the central city.

Please note: most accommodation facilities do not accept pets. Some agencies may try to find pet-friendly accommodation, but there are no guarantees.

Visit Melbourne.vic.gov.au for an online version of this booklet.
Acknowledgment of Traditional Owners

The City of Melbourne respectfully acknowledges the Traditional Owners of the land we govern, the Wurundjeri Woi Wurrung and Bunurong Boon Wurrung peoples of the Eastern Kulin and pays respect to their Elders past, present and emerging.

We acknowledge and honor the unbroken spiritual, cultural and political connection the Wurundjeri, Bunurong, Dja Dja Wurrung, Taungurong and Wada Wurrung peoples of the Eastern Kulin have to this unique place for more than 2000 generations.

We are committed to our reconciliation journey, because at its heart, reconciliation is about strengthening relationships between Aboriginal and non-Aboriginal peoples, for the benefit of all Victorians.

Extreme weather information

Extreme weather events can happen anywhere, and at any time of the year, posing safety risks to people and animals. Being prepared for extreme weather conditions can reduce health issues caused by these events.

VicEmergency14 is the primary website for fire and flood warnings, mapping all emergency incidents in Victoria. We advise checking more than one source for emergency warnings.

Heat health alerts

Once the temperature reaches 30C, the incidence of heat-related illnesses increase substantially. When Melbourne is forecasted to exceed this temperature, the Department of Health releases a heat health alert.

What does City of Melbourne do when a heat health alert has been issued?

We notify service providers, agencies and established community organisations who help people experiencing homelessness when a Heat Health alert has been issued. Ask your local community service about what kinds of extreme weather support is available.
